## A DOCUMENTARY FILM BY GEORGE GEDEON

In this startling investigative piece, Canadian-Greek journalist George Gedeon focuses his camera on the historic and current climate of attitudes towards Jews. The Jewish population in Greece went from 70,000 prior to the Holocaust to 5,000 today. During several visits to Greece and through interviews with Jewish leaders, Holocaust survivors, and academics, Gedeon exposes the misinformed and intolerant views propagated by some Greek mass media and certain Church and political leaders.
